

Dear Moritz,

Congratulations on the 30th anniversary of your magnificent band. It has been our pleasure to work together and to hear the great arrangements and wonderful musicianship you and all the members of Moritz display.

In addition to that, you all have been so warm and welcoming to us. When we heard that part of the reason you make the music you play is because of our music, we just had to write and wish you a big hearty congratulations from your fans across the pond.

Best wishes on 30 years together and we wish you at least 30 more.

The members of Blood Sweat and Tears.
